Comment

The most important person for me is my mother. She is really kind and helpful. Also we both like animals! One day she even suggested me to do equesterian sport and I agreed. As other kinds of sport horse riding is very difficult, but I'm not afraid because I know that my mum will support me in any situation, so I love her so much! By the way, we can't live together for all time because of her work and it's sad.
